HIPPOCRATES
## TECHNOLOGIES

The Digital Health Lab Company

Hippocrates Technologies launched the world's first open digital health laboratory: *TheraForge,* a powerful set of prototyping and development tools for students, researchers, software developers, clinicians and doctors.

TheraForge *is an enterprise-grade low-code and no-code development toolkit* (SDK) and *Backend-as-a-Service* (BaaS) *platform* for digital health, medical IoT and wellness solutions, which enables innovators to:

✦ Build professional mobile and cloud-based digital health solutions.

✦ Create prototypes and full-fledged apps in a tenth of the time and with a fraction of the cost.

✦ Reinvest savings of up to 60 cents on a dollar into one's own intellectual property and build a stronger moat against the competition.

✦ Get started for free with a trial cloud account and an open mobile SDK!

Getting-Started

TheraForge: Digital Health Made Easy

With TheraForge you can quickly implement a mobile iOS app, and a smartwatch app, connect them to the cloud and to external databases, use a web-based dashboard for virtual care of patients, telemedicine, research and monitoring.

TheraForge enables you to create an FDA-grade cloud-enabled mobile app prototype in a matter of hours (equivalent to an app used by a top US hospital).

It natively supports wearable devices and smartwatches. It's the first low-code solution to support also AppleWatch[1] apps.

TheraForge-based mobile and web apps come with native GDPR-compliant and HIPAA-compliant features, and are based on the popular OWASP security best practices.

The TheraForge SDK is geared toward implementing cloud-based virtual care/tele-health solutions that support 100% remote doctor-patient care plan management. It can be employed to implement digital therapeutics, fitness or wellness apps, and scalable data-driven medical research applications.

Contact us for our value and premium BaaS pricing and for any bespoke co-development requests.

Let's *theraforge* novel and groundbreaking apps together!

[1] Apple Watch™ is a trademark of Apple, Inc.
